Features

Reinforced and stable chassis

Built with side impact beams, plates, and boxes, the ESL122 chassis resists deformation from heavy loads, ensuring long-term durability and safe stacking operations.

Rigid duplex mast

The beam-structured mast provides rigidity and smooth lifting up to 2930 mm. Its strength ensures stability and performance even in repetitive light-duty cycles.

Easy and precise operation

The extra-long offset tiller with crawl speed button enhances operator visibility and maneuverability. This makes the ESL122 ideal for safe handling in narrow aisles and tight warehouse layouts.

Efficient hydraulic system

A high-quality hydraulic pump reduces noise, improves lifting efficiency, and shortens cycle times. This ensures both operator comfort and consistent productivity.
